

RADI-LUGS COPPER TUBE TERMINALS (Narrow Palm) (RCT -BritishStandardDesign)

E343654

RNPL series of copper tube terminals are made from high purity copper tube and are annealed. This product is developed to enhance both mechanical and electrical performance in electrical connection of cable ends.

The terminals are electrolytically tin plated to prevent atmospheric corrosion.

The product has a maximum operating voltage up to 11KV

The dimensions of this product is designed for installation of cables to terminal blocks, MCB and ELCB This series of product are tested and certified to UL-ZMVV, ANSI/UL 486A-486B and ANSI/UL 486C
